## **Section 1: Executive Summary**

The University of Southern California (USC) and the Los Angeles Homeless Services Authority (LAHSA) collaborated in the design, implementation, and analysis of the 2017 Greater Los Angeles Homeless Count (HC17), which represents a new partnership and USC's first major project under its Homelessness Initiative. The HC17 is intended to provide point-in-time estimates of the homeless population in the Los Angeles Continuum of Care (CoC) geographic area, which includes all of Los Angeles county except the cities of Pasadena, Glendale, and Long Beach. This fulfills the HUD-mandated Point-in-Time (PIT) Count to count and estimate demographic characteristics of persons experiencing literal homelessness- unsheltered/sheltered during last 10 days in January.

USC and LAHSA collaborated on the sample design for the HC17. Scientific sampling was used to select census tracts<sup>1</sup> (CTs) in the CoC to conduct: (1) a count of the adult homeless population; (2) a demographic survey of homeless adults (aged 25 or older); and (3) a count of homeless youth (under age 25). The goal of conducting the HC17 using scientifically derived samples was to produce accurate estimates of the homeless population across the entire CoC and in geographic units contained within the CoC, such as Service Planning Areas (SPAs). Shelter counts were complete enumerations and considered free of sampling error. Rates of various categories of homelessness were derived from the face-to-face demographic survey.

Estimates of the shelter and street homeless populations were derived with sheltered and unsheltered homeless PIT count data, Homeless Management Information System (HMIS) data, and unsheltered adult and youth demographic surveys. HMIS data and the unsheltered adult demographic survey were used to estimate prevalence rates of demographic and subpopulation characteristics of interest for adults and their families that were applied to the sheltered and unsheltered PIT count. However, the unsheltered youth demographic survey was used not only to estimate the prevalence rates of demographic characteristics and subpopulations of interest for unsheltered youth and their families, but also the total number of unsheltered homeless youth and youth families. Note that sheltered youth demographic and subpopulation prevalence rates were estimated using HMIS data that were applied to PIT shelter count data collected on youth and their families. Estimates were calculated using SAS version 9.4 (TS1M3), a statistical software package. The SAS procedure SURVEYMEANS was applied to the unsheltered youth and adult demographic estimates and the estimate of unsheltered youth counts, providing point estimates and standard errors that were adjusted for the survey sample design for the surveys. The HMIS-based demographic measures were estimated without these adjustments. Because the sample strata were based on selection within SPAs, the estimates at the CoC and SPA level are the most precise, whereas the estimates at other geographic levels are less so and particularly unstable when the geographic unit is smaller than an SPA, e.g., for council districts. For some subpopulations, even within SPAs, the estimates are also imprecise because of small sample sizes. Caution should be applied when interpreting estimates with large relative standard errors (RSE) or small counts.

---

<sup>1</sup> 2010 census tracts were used in all sampling procedures.

## **Section 2: Background and Overview**

For the HC17, USC's responsibilities were to provide methodology and process direction, design and select all required samples, assist with the execution of the demographic survey, develop estimation strategies, and produce survey estimates. LAHSA was responsible for all other data collection tasks, which included conducting the street and shelter counts, convening an advisory board committee, designing the contents of survey questions and forms, collaborating on the demographic survey, compiling the estimates for presentation, and conducting a separate youth count.

## **Section 3: Homeless Street Point-in-Time Count**

The HC17 PIT count of homeless adults was conducted in all 2,160 CTs. To prepare for the possibility that not all CTs could be covered, a randomly selected sample of the 2,160<sup>2</sup> CTs contained in the Los Angeles CoC was developed but not used. LAHSA requested that USC determine a selection of CTs representing 95% of all CTs in the CoC, but also that 100% of CTs be selected in SPA 9 (Skid Row) and SPA 10 (Venice).<sup>3</sup> Simple random sampling (without replacement) was used to select a 95% sample of 2,145 CTs and all 15 CTs in SPAs 9 and 10. The number of selected CTs and coverage percentage is shown in Table 1.

Table 1. Number and Percent of Census Tracts (CTs) selected by SPA for HC17 PIT Count

SPA	CTs	Sampled CTs	CT Coverage within SPA
1 - Antelope Valley	84	79	94%
2 - San Fernando Valley	474	456	96%
3 - San Gabriel Valley	358	336	94%
4 - Metro	273	259	95%
5 - West	150	138	92%
6 - South	228	214	94%
7 - East	288	275	95%
8 - South Bay	246	238	97%
9 - Skid Row (part of Metro)	4	4	100%
10 - Venice (part of West)	11	11	100%
11 - Hollywood (part of Metro)	44	42	95%
Totals	2160	2052	95%

## **Section 4: Demographic Survey – Unsheltered Homeless Sample**

The objective of the 2017 Demographic Survey (DS17) was to collect data on a sample of homeless adults to use in calculating population estimates of homeless adults across the CoC and within SPAs and other geographies contained in the CoC. LAHSA requested that the DS17

<sup>2</sup> LAHSA identified 2,160 CTs in the Los Angeles CoC for HC17, an increase from 2,155 CTs in HC16. CTs were added in HC17 based on boundary realignments determining the extent of the CoC.

<sup>3</sup> SPAs 9 (Skid Row), 10 (Venice), and 11 (Hollywood) were identified by LAHSA as separate SPAs.

sample consist of an similar number of CTs as were sampled in the 2016 Homeless Count (HC16) with known probabilities using information on homelessness hotspots and historical population data from HC16.

#### 4.1. Sample Selection

Sampling for DS17 was conducted using a two-stage sampling approach based on CTs allocated to SPAs and within SPAs, to strata (defined using information on homeless population hotspots). Sample selection probabilities were then used in the computation of sample weights for analysis purposes.

LAHSA provided to USC a data file with information from HC16 on population size and hotspot designations for each CT within SPAs. The file contained the following information:

- Assignment of CTs to SPAs. The data file included 2,160 CTs assigned to one of the following 11 SPAs:
  1. Antelope Valley
  2. San Fernando Valley
  3. San Gabriel Valley
  4. Metro
  5. West
  6. South
  7. East
  8. South Bay
  9. Skid Row (part of Metro)
  10. Venice (part of West)
  11. Hollywood (part of Metro)
- Indicators identifying CTs as individual hotspot, vehicle hotspot, family hotspot, and non-hotspot. These categories constituted separate strata for sample selection. This information was used to determine assignment of CTs to strata.
- Historical data from HC16 on the number of individuals in each CT and median average deviation within SPA.

USC selected the DS17 sample using the following procedures:

1. Prior to sample selection, CTs had to be assigned to strata within SPAs. Assignment to strata was done using binary indicators for hotspot or non-hotspot categories provided by LAHSA. There were three hotspot indicators (tot\_ind\_hs; tot\_vehenc\_hs; tot\_fam\_hs) reflecting information about CTs that contain homeless adult individuals, homeless adults in vehicles or encampments, and homeless families. Hotspot indicators were not mutually exclusive in this file; a CT could have been identified as being a hotspot for both vehicles and families, for instance. Table 2.1 shows the amount of overlap in assignment of CTs to different hotspots.

Table 2 Number of CTs by Hotspot Indicator

		Fam_HS & Vehicle_HS	
		No	Yes
Ind_HS	---	---	---
	---No---	---Yes---	---No---
No	1,263	264	18
Yes	290	274	14
			21

Ind\_HS: Individual Hotspot Indicator

Fam\_HS: Family Hotspot Indicator

Vehicle\_HS: Vehicle/Encampment Hotspot Indicator

A CT could only be allocated to one stratum for sampling purposes, so prioritization was established to assign CTs to mutually exclusive strata. The rules of assignment were:

1. CTs identified as containing a family hotspot were assigned to the family stratum.
2. Any remaining CTs identified as containing a vehicle or encampment hotspot were assigned to the vehicle stratum.
3. Any remaining CTs identified as containing an individual hotspot were assigned to the individual stratum.
4. All remaining CTs that were not identified as hotspots were assigned to a non-hotspot stratum.

Each CT was assigned to one of four strata within SPAs (see Table 2.2): individual (IND\_HS), vehicle or encampment (VE\_HS), family (FAM\_HS), and non-hotspot (NHS). Exceptions were SPAs 9 and 10, which were each represented with one stratum. With four strata in each of nine SPAs, plus the additional two strata from SPAs 9 and 10, there were 38 strata. Family hotspot strata had the fewest CTs, whereas the majority of CTs in each SPA were assigned to the non-hotspot strata.

2. LAHSA requested that the DS17 sample consist of an approximately similar number of CTs as were sampled in HC16 ( $N = 409$ ). USC determined that the survey sample should consist of 415 CTs. In HC16, all four Skid Row tracts were selected into the sample and five of 11 Venice tracts were selected. Without the Skid Row and Venice tracts ( $n = 9$ ), the target sample featured 400 CTs. In HC17, Skid Row and Venice were treated as separate SPAs with 100% coverage. With a target CT sample size of 400 and the additional full coverage of Skid Row and Venice CTs ( $n = 15$ ), the target sample size for 2017 was 415 CTs, which is slightly higher than the prior year sample size of 409.<sup>4</sup>
3. Sampling for DS17 was conducted using a two-stage sampling approach. The first stage was a probability sample of CTs, with allocation of CTs to each SPA using Neyman proportional allocation. Neyman allocation is an optimal allocation method that maximizes the precision of survey estimates by minimizing the variance of the mean estimator. Using this method, we obtained more precise SPA estimates by determining the number of CTs to sample within each

<sup>4</sup> After the DS17 sample was selected and interviewers were in the field, it was determined that three CTs with family drop-in centers needed to be included in the sample to increase representation of homeless families in the sample. Therefore, three additional CTs were added to the sample, resulting in a final DS17 sample of 418 CTs.

SPA proportional to the product of the number of CTs per SPA and the SPA standard deviation.<sup>5</sup> Using this sampling method meant we sampled more CTs from SPAs with a larger number of CTs or larger variability in CT homeless populations to account for heterogeneity in the homeless population within and across SPAs.

The number of CTs to sample was determined using the following formula:

$$n_h = n^* \left( \frac{N_h \sigma_h}{\sum_{i=1}^L N_i \sigma_i} \right)$$

In this equation:

$n_h$  is the number of sampled CTs per SPA

$n$  is the total number of CTs in the target sample

$N_h$  is the number of CTs in each SPA

$\sigma_h$  is the median average deviation of each SPA

$N_i$  is the total number of CTs across all SPAs

$\sigma_i$  is the summed median average deviation across SPAs

Selection probabilities were calculated for each SPA (probabilities sum to 1). At this stage, 100% probability of selection was assigned for CTs in SPAs 9 and 10, and these 15 CTs were not included in the Neyman allocation.

These selection probabilities were multiplied by the number of CTs in the target sample ( $n$ ) to determine the number of CTs to be sampled from each SPA ( $n_h$ ). Due to rounding, only 414 CTs were selected, so controlled rounding to the next largest fractional stratum was used to add one additional CT to the total number of CTs to be selected in SPA 3.

After determining the number of CTs to sample from each SPA, the number of CTs to sample from each stratum within each SPA was determined by calculating the probability of selection of CTs within SPAs based on the proportion of the SPA population in each stratum (strata probabilities sum to 1 within SPA). Again, fewer CTs were selected than the target of 415 due to rounding, so we used controlled rounding to the next largest fractional family stratum to augment the sample of family hotspot CTs. One additional CT was added to the total number of CTs to be selected from Strata 7, 11, 15, 23, and 27. This approach resulted in a sample with the target number of CTs ( $n = 415$ ) and had the added benefit of increasing the sample of CTs from the family hotspot stratum.

The number of CTs in each stratum within SPAs are shown in Table 2.2, along with the number of sampled CTs allocated to each stratum.

4. After determining the number of CTs to be included in the sample within each stratum, random sampling without replacement was used to draw the final sample of 415 CTs. Stata's

---

<sup>5</sup> Information on SPA standard deviation was provided by LAHSA based on data from HC16. The median average deviation of 2016 historical data on individuals was calculated for each SPA by subtracting the number of individuals counted in each CT from the median across all CTs and dividing the sum of the absolute differences within SPAs by the number of CTs within SPAs.

*randomtag* program was used to select CTs at random without replacement. The randomly selected CTs were tagged (variable name: sample\_ct) for inclusion in the survey sample.

5. The second stage of sampling for the DS17 was assumed to be a random selection of homeless people within selected CTs. Interviewers conducted surveys with any homeless person they could locate in a CT who agreed to the survey. Respondents were assumed to be selected at random from the homeless population in the CT, and interviewers went to great lengths to locate homeless individuals in difficult terrain. Nonresponse after contact was very low and factored into the final analytic weights.

Surveys were conducted in 316 of the 415 sampled CTs. Survey attempts were made in 387 CTs (93% of sampled CTs).

#### 4.2. Sample Weights

Sample weights were constructed for use with the DS17 data. Strata sample weights were calculated by taking the inverse of the probability of selection. Selection probabilities for each stratum were then determined by multiplying the Neyman selection probability and the proportion of HC16 SPA population in strata. Several strata were assigned 100% probability of selection, i.e., Strata 33–37 (see Table 2.2). Final sample weights were constructed during the data analysis process (see Section 8).

Table 3. CTs by Strata and SPA and Sampled CTs

SPA	Hotspot Name	Sampled	
		Strata	CTs
1 - Antelope Valley	IND_HS	1	16

Totals		2160	415		

#### 4.3. CT Swap Strategy

##### Summary:

In a nontrivial number of CTs selected as part of the DS17 sample frame, interviewers could not identify any homeless adults (i.e., no visible homeless individuals or vehicles or encampments noted by interviewers after one or two visits at different hours of the day). LAHSA expected this could occur based on its experience conducting surveys the previous year (as reported in a meeting on November 9, 2016, at City Center). Although some thought was given to exploring potential alternative strategies for drawing the sample, no decision was made to deviate from the prior year's sampling strategy. It was clear, however, that an alternative strategy was necessary to address the survey deficits that were occurring as a result of the sample frame selection.

##### Sampling Methodology (Brief Description):

- Each CT was assigned to one of four strata within each SPA: individual hotspot, vehicle or encampment hotspot, family hotspot, and non-hotspot. Skid Row and Venice each constituted one stratum, for a total of 38 strata.
- The CT sample is a random probability sample. This means CTs were selected randomly with known probability of selection within strata.

##### Post Hoc Sample Frame Adjustment:

There are two challenges to making post hoc adjustments to the sample frame:

1. Maintaining a probability sample, which is necessary for statistical estimation.
2. Maintaining the random selection, which is necessary to avoid sampling bias.

Any adjustment to the sample frame needed to avoid compromising the ability to produce statistical estimates that are representative of the population.

**Proposed CT Swapping Strategy:**

While in the field, our interviewers identified nonsampled CTs that contained homeless individuals. CTs could not be added to the sample without having to recalculate sampling probabilities. We could, however, swap a sampled CT for a nonsampled CT within the same stratum without needing to adjust the sampling probabilities.

Swapping CTs would mean the sample would no longer be random but instead a quasi-random sample. Typically, a nonrandom sample would result in sample bias because inclusion in the sample would be related to respondent characteristics (e.g., gated community residents, retirees, unemployed individuals). This is not a concern with this population because respondent characteristics were unrelated to the selection of the nonsampled CTs.

CTs not included in the sample frame were identified for swaps based on information from SPA homeless coalition leaders and interviewer observations while in the field. Once a CT was identified, it was swapped with a sampled CT that had previously been identified as having zero homeless population (based on information from SPA leaders, interviewers, and the 2017 PIT count). *If a within-strata swap could not be found, the CT was not swapped.* CT swaps were done only under the following circumstances:

1. Visual inspection by interviewers or SPA leaders confirm a CT candidate for swap.
2. The swap was necessary to increase the number of surveys in a SPA.
3. CTs not in the sample frame contained key places for accessing the population, such as TK (FSCs).

**Example Results from CT Swap in SPA 6:**

Homeless individuals were observed near Hill and 39th streets by interviewers, but this area was not in a sampled CT. We swapped a CT with zero population (226700) for the new CT (231000)—both in Stratum 22. In one day, 114 interviews were obtained from the swapped CT. We also planned to swap CT 227010 for CT 241202, which contained an FSC—both in Stratum 23. Based on information from SPA 6 leaders, we planned to swap CT 239310 for CT 219700—both in Stratum 24.

**CT Swaps Inventory**

SPA	Stratum	Nonsample CT	Sample CT	Notes:
1	1	900703	900507	SPA 1 intel that areas in this CT have large population; swapped with 900507, which has no population
1	3	900606	900705	Groceries at First Baptist Church, 4829 W Ave L-8, Quartz Hill; St. Mary's, 1600 E. R-4 Palmdale
2	6	143200	124201	Mobile Showers & Hot Meal Truck at St Charles Church, 10825 Moorpark St in North Hollywood

2	6	115202	117202	Food distribution center at San Fernando Valley Rescue Mission, 8765 Canby Ave, Northridge; CT 117202 had low HC17 PIT count
2	6	127400	119341	Visual inspection showed population at 8100 Haskell Ave, Van Nuys
2	8		119310	Mend Poverty at 10641 N San Fernando Road, Pacoima
2	8	463102	408133	Swap requested by LAHSA

3	10	404701	407302	Syracuse and Ramona
3	10	433302	460200	12487 Valley Blvd, El Monte
3	10	431001	407302	Swap requested by LAHSA
4	13	700400	700101	On 3/25/2017, 9:27 AM, Bryan Gaines asked about 647 N San Vicente Blvd, West Hollywood
6	22	231000	226700	Visual inspection showed 231000 to have large population, whereas 226700 had zero population
6	23	241202	227010	CT 241202 contains an FSC
6	24	241400	241201	Determined that the tract in SPA 6 is 241400 (will visually confirm the encampment site tonight and deploy teams tomorrow during the day)
6	24	232500	238400	On 3/22/2017, 10:46 AM, Karen Lincoln asked about 5721 S Western Ave, Los Angeles, CA
7	25	536103	501803	Swap requested by LAHSA
7	26	532304	536104	Swap requested by LAHSA
8	29	601402	602504	Siminski Park at 9717 S. Inglewood Ave
8	32	600902	650800	LAX Food Pantry at 355 E Beach, Inglewood
8	32	601801	670202	Burger King at 4350 W Century Blvd, Inglewood, CA

## Section 5: Youth Count (Survey)

The objective of the 2017 Youth Survey (YS17) was to collect data on a sample of homeless youth, under age 25, to calculate population estimates of homeless youth across the CoC and within SPAs and other geographies contained in the CoC. LAHSA requested that two samples be selected from the 2,160 CTs in the CoC—a 25% sample and a 20% sample—with known probabilities using information on hotspots and historical population data from HC16. The target number of CTs was 432 in a 20% sample and 540 in a 25% sample.

### 5.1. Sample Selection

LAHSA provided to USC a data file titled “Hot Spots for Youth Survey 12282016.xls” containing the following information:

- Assignment of CTs to SPAs. The data file included 2,160 CTs assigned to one of the following 11 SPAs:
  1. Antelope Valley
  2. San Fernando Valley
  3. San Gabriel Valley
  4. Metro
  5. West
  6. South
  7. East
  8. South Bay
  9. Skid Row (part of Metro)
  10. Venice (part of West)
  11. Hollywood (part of Metro)
- Indicators for CTs identified as hotspots based on having access centers or drop-in sites for youth, being identified as an active location by a youth focus group, the historical 2016 Youth Survey (YS16) count raw data, the historical street count data on transition-aged youth (TAY) and unaccompanied minors, and non-hotspot. These categories constituted separate strata for sample selection. This information was used to determine assignment of CTs to strata.

USC selected the YS17 sample using the following procedures:

1. Prior to sample selection, CTs had to be assigned to strata within SPAs. Assignment to strata was done using binary indicators for hotspot or non-hotspot categories provided by LAHSA. Assignment to hotspot categories came from four sources:

- DI: Access centers and drop-in sites for youth with hotspot designation determined based on the number of access centers within a CT.
- FG: Youth focus groups that collected data from formerly homeless youth about current active locations and number of youth in these locations.
- YC: Historical youth count raw data on the number of surveyed youth who were PIT eligible in the YS2016.
- SC: Historical street count data on the number of TAY and unaccompanied minors observed during the PIT count.

The remaining CTs not identified with these four categories were assigned to the non-hotspot category. Hotspot indicators were mutually exclusive and in order of priority. Each SPA featured five hotspot strata, with the exception of SPAs 9 and 10, which were each treated as a single stratum, which resulted in 47 strata (see Table 3.2).

2. Sampling for YS17 was conducted using a two-stage sampling approach. The first stage was a probability sample of CTs using proportional allocation of CTs to strata.

LAHSA instructed USC to select CTs in DI- and FG-designated strata with certainty and to select strata within SPAs 9 and 10 with certainty. LAHSA also requested that CTs in non-hotspot

strata (NHS) be sampled with low probability. It was determined that two CTs would be selected from each NHS strata in the 20% sample and 10 CTs would be selected from each NHS strata in the 25% sample. As shown in Table 3.1, this resulted in selection probabilities ranging from 1%–2% in most SPAs in the 20% sample. Selection probabilities were higher in SPA 1 (4%) and SPA 11 (13%) due to the much smaller number of NHS CTs in these SPAs. The selection probabilities ranged from 3%–8% in the 25% sample, with higher selection probabilities in SPA 1 (18%) and SPA 11 (67%). With the exception of SPA 11 and SPA 1 in the 25% sample, these reflect low selection probabilities as per LAHSA's sample design instructions.

**Table 4. Selection Probabilities of NHS CTs in the 20% and 25% Samples**

SPA	CTs in NHS Strata	Pr(Selection)	
		- 20% Sample	Pr(Selection) - 25% Sample
1 - Antelope Valley	56	4%	18%
2 - San Fernando Valley	365	1%	3%
3 - San Gabriel Valley	298	1%	3%
4 - Metro	228	1%	4%
5 - West	124	2%	8%
6 - South	155	1%	6%
7 - East	254	1%	4%
8 - South Bay	200	1%	5%
9 - Skid Row (part of Metro)	0		
10 - Venice (part of West)	0		
11 - Hollywood (part of Metro)	15	13%	67%

After excluding CTs sampled with certainty (from DI and FG strata and SPAs 9 and 10) and CTs from NHS strata, which have a known probability of selection, the target number of CTs was 171 for the 20% sample and 207 for the 25% sample. Focusing only on YC and SC strata, selection probabilities were calculated for each SPA (probabilities sum to 1 within SPA) using the following proportional allocation formula:

$$n_h = n * \left( \frac{N_h}{N} \right)$$

In this equation:

$n_h$  is the number of sampled CTs per stratum

$n$  is the total number of CTs in the target sample

$N_h$  is the number of CTs in each stratum

$N$  is the total number of CTs across strata

This is a different approach than used in the selection of the DS17 sample, which first determined the number of CTs per SPA and then per stratum. For the YS17 sample, too many strata within SPAs were sampled with certainty to allow for a probability sample to be drawn within SPAs.

The selection probabilities derived from proportional allocation of CTs to stratum were then multiplied by the total number of CTs in the target sample ( $n$ ) to determine the number of CTs to be sampled from each stratum ( $n_h$ ). Due to rounding, the target number of CTs in the 20% sample came to 170, which is one less than the 171 target. Controlled rounding up to the next largest number was used (8.47 was rounded up to 9 in Stratum 33) to achieve 171 CTs for the 20% sample. As a result of rounding, the target number of CTs in the 25% sample came to 209, which exceeded the 207 target. Controlled rounding down to the next smallest number was used (in Strata 4 and 18, the selection number of 6.5 was rounded down to 6) to achieve 207 CTs for the 25% sample.

3. After determining the number of CTs to be included in the sample within each stratum, random sampling without replacement was used to draw the final sample of CTs in the YC and SC strata. Stata's *randomtag* program was used to select CTs at random without replacement. The randomly selected CTs were tagged for the 20% sample (variable name: *sample\_ct\_20*) and the 25% sample (variable name: *sample\_ct\_25*).

4. The second stage sampling for YS17 was a random selection of homeless youth within the selected CTs. Interviewers conducted surveys with any homeless youth they could locate in a CT who agreed to take the survey. Respondents were assumed to be selected at random from the homeless population in the CT.

Table 5. CTs by Strata and SPA and Sampled CTs (20% and 25% samples)

## 5.2. Sample Weights

Sample weights were constructed for use with the YS17 data. Strata sample weights were calculated by taking the inverse of the probability of selection. Selection probabilities for each stratum were then determined by multiplying the selection probability and the proportion of HC16 population in strata. Several strata were assigned 100% probability of selection (Strata 2, 6, 7, 11, 12, 17, 22, 26, 27, 31, 32, 36, 37, and 41–44). Several strata had no assigned CTs (Strata 1, 16, 21, and 45) and were therefore assigned zero probability of selection and did not have a sample weight. Final sample weights were constructed by the USC Analysis Team.

## 5.3. Selection of the 20% Sample

LAHSA determined that it would use the 20% sample for YS17. This sample represented a significant increase compared to the number of CTs included in YS16, but was preferred to the 25% sample based on capacity for fieldwork.

#### 5.4. Addition of CTs to the Sample Frame

After the YS17 sample of CTs had been selected, LAHSA determined that several CTs with access centers had not been identified in the materials LAHSA sent to USC. There were 55 CTs that differed on the drop-in center indicator from the original LAHSA file. There were 19 CTs that were part of the 20% sample selection and thus did not require any changes to the sample. An additional 12 CTs in the original 20% sample had a different drop-in center hotspot designation than in the file used to create the sample selection and 10 CTs that were drop-in hotspots in the 20% sample selection but later determined by LAHSA to not be hotspots. Finally, 14 CTs later determined to contain access centers were not included in the 20% sample of CTs. It was USC's recommendation to retain the selection probabilities and sample weights for 41 CTs that were already part of the 20% sample, but note that they were not properly allocated to strata. Furthermore, because the sample could not be redrawn at the point LAHSA determined there were errors in the original file used to draw the sample, USC recommended that the 14 CTs that were not part of the original sample frame be added to the sample with 100% probability of selection to reflect the fact that these CTs were selected with certainty.<sup>6</sup>

Table 6. Sample Weight Adjustment for 14 CTs Added to Youth Sample

Strata	Strata Sample Weight	CTs with Revised Sample Weight	Revised CT Sample Weight
10	182.5	123800	1.0
14	12.3	402303	1.0
15	149.0	432402	1.0
20	114.0	207900	1.0
30	77.5	238100; 240200; 240800; 703100	1.0
33	20.2	532304	1.0
35	127.0	554204; 530302	1.0
40	100.0	600100; 621004	1.0
47	7.5	190301	1.0

Making these adjustments to the sample frame very likely means that the selection probabilities and resulting sample weights were not completely accurate. However, USC does not expect that these changes, which were expected to make only slight differences in selection probabilities in most cases, will have undue influence on the estimates derived from the YS17 data.

### **Section 6: Producing Estimates for 2017 Shelter Count**

#### 6.1. Overview of Point-in-Time Shelter Count

Shelter count estimates were generated using the PIT shelter count. LAHSA conducted a PIT shelter count that is a 100% enumeration of all shelters in the CoC; therefore, there is no sampling or sampling error. The shelter PIT count provides the raw number of homeless

individuals living in the following shelter types: emergency shelters (ES), transitional housing (TH), safe havens (SH), and vouchers for hotels or motels. For HC17, 13,972 individuals and 9,594 households were counted during the shelter PIT count.

## 6.2. Homeless Management Information System Data

Subpopulation and demographic estimates were estimated using HMIS data. Complete HMIS records from December 1, 2016, to December 31, 2016, with demographic characteristics were used to derive the distribution of demographic and subpopulation characteristics for the sheltered homeless population. Following prior years, HMIS data were assumed to be a complete enumeration of the sheltered population; therefore, additional weighting was not required to generate demographic and subpopulation estimates.<sup>6</sup> After deduplication, 11,388 individuals in 10,806 households were used for analysis.

## 6.3. Data Analysis

After deduplication,<sup>7</sup> demographic characteristics and subpopulation estimates were generated by estimating the proportion within the HMIS data for each type of shelter (ES, TH, SH) and household type (i.e., individuals, adult and TAY families, and veterans). This proportion was then applied to the appropriate PIT shelter household count to obtain the number of individuals within each household type living in each shelter category (see Figure 1). For example, if we wanted to estimate the number of sheltered adult women (with no children) aged 25 or older, we would obtain the shelter PIT count for all individuals aged 25 or older by shelter type (ES, TH, SH). We then would estimate the proportion of unaccompanied women from each shelter type who were aged 25 or older using the HMIS demographic data. Once these numbers were obtained, we would sum across estimates to obtain the number of unaccompanied women aged 25 or older. In general, total estimates were generated by first calculating the subpopulation totals and then summing across all shelter, age, and household types to ensure that the sum of the parts equaled the total sum (see Appendix D for the HC17 shelter count results).

# **Section 7: Producing Estimates for 2017 Unsheltered Homeless Count**

## 7.1. Unsheltered Adult Count

The adult street count estimates were also generated from two distinct sets of data: the PIT street count and the demographic survey. Because the PIT street count was a 100% enumeration of all

---

<sup>6</sup> Note that some shelters do not report to HMIS either because they do not receive funding from LAHSA or for confidentiality purposes (domestic violence [DV] shelters); however, LAHSA collects count data separately from these shelters to include in the shelter PIT count. Therefore, the HMIS data are a total enumeration of all shelters that contribute to the HMIS system. By applying the HMIS data to the non-HMIS providers and DV shelters, we implicitly assumed that the distribution of characteristics in the HMIS shelters were the same as those in the non-HMIS and DV shelters. Also note veterans are overrepresented in the HMIS population; however, this only poses a problem if the characteristics of veteran families in the HMIS data are different compared to non-HMIS veteran providers.

<sup>7</sup> Note that several duplicates occurred in the HMIS data, partially stemming from what appeared to be individuals moving from shelter to shelter. Our deduplication process used birthdate, gender, ethnicity, race, and veteran status to eliminate most duplicates, but for households wherein individuals appeared across multiple census tracts (0.74%), gender and birthdate were used to identify further duplicates.

CTs, these data provide the total population estimates for each household type (all households with at least one adult aged 25 or older, adult households with children, and adult households with no children). This year, 9,587 individuals and 14,412 uninhabitable dwellings were counted during the unsheltered PIT count. To estimate the number of homeless individuals classified within each of the desired demographic and subpopulation categories, USC administered a survey to a sample of the unsheltered adult homeless population (see Section 5 for information on the survey design). After deduplication, 4,808 eligible<sup>8</sup> surveys representing 4,989 individuals could be used to estimate demographic and subpopulation estimates. A methodology like the one used for the shelter count was employed to estimate the proportion within each household type (adults with children, adults without children, veterans without children, and veterans with children) with specific demographic and subpopulation characteristics. These proportions were then applied to their respective PIT population totals (see Figure 1).

Sample weights were applied to account for the sampling method and produce population-level estimates. The sample weights were calculated as the inverse of the probability of selection (see Section 5) and scaled so that the weights for each stratum were proportional to its PIT count population.<sup>9</sup> All demographic and subpopulation estimate standard errors were adjusted for the survey sampling design.

## 7.2. Unsheltered Youth Count

In comparison to unsheltered adults, homeless youth are harder to measure because they are a population that may not appear homeless or are often located in inconspicuous areas. Therefore, a sampling enumeration framework was used to estimate the unsheltered youth count for youth-headed families, unaccompanied TAY (aged 18–24), and minors. Specifically, LAHSA collected 1,320 youth surveys (1,073 youth surveys collected during the youth count and 147 youth surveys that were transferred from the demographic survey to the youth count based on shared sample CTs). After deduplication, 787 eligible<sup>10</sup> youth surveys representing 811 individuals were used to estimate the youth street count. Total, demographic, and subpopulation counts were calculated from the youth surveys by household type (i.e., unaccompanied and accompanied youth) using a similar method to the unsheltered adult count (see Figure 1). The main difference in the methodology between the youth and adult unsheltered counts is that the total number of homeless unsheltered youth is an estimated number derived from the weighted sum of the number of youth in each youth household interviewed for the survey,<sup>11</sup> which means that the sampling weights played a greater role in determining the number of unsheltered homeless youth.

Youth sampling weights were calculated as the inverse of the probability of selection (see Section 6). The sampling weight was then adjusted for unit nonresponse (i.e., multiplied by the

---

<sup>8</sup> Eligibility was determined by age and housing status.

<sup>9</sup> Note that scaling to actual population estimates implicitly takes into consideration unit nonresponse.

<sup>10</sup> Eligibility was determined by age (respondent must be less than 25 years old and without anyone 25 or older in the household) and housing status.

<sup>11</sup> Each youth interview represents a youth household.

inverse of the average probability of responding to the survey within each stratum<sup>12</sup>).<sup>13</sup> The nonresponse-adjusted sampling weights were capped at the 90th percentile of the adjusted weights to control for outliers and extreme values. Unlike the adult street count, the youth PIT count used a sampling enumeration; therefore, sample weights were not scaled to actual population counts. Specifically, each individual identified in the survey, i.e., the respondent and household members, was multiplied by the sample weight, which represented the total number of people in the youth population that the survey respondent represented. The total youth homeless population was calculated by summing these products. Specifically,

$$Y = \sum_{i=1}^n P_{is} * W_s, \text{ and}$$

$$P_{is} = R_{is} + n_{is}$$

where Y is the total youth estimate;  $P_{is}$  is equal to respondent  $R_i$ , with household members  $h_i$ , in strata s; and  $W_s$  is the nonresponse adjusted weight W for strata s. The total estimated unsheltered youth population is 4,451.

### 7.3. Uninhabitable Dwelling Conversion Factors

The number of dwellings not meant for human habitation were counted during the adult PIT street count and used to estimate the number of individuals living within these types of dwellings, which include cars, vans, RVs, tents, and makeshift shelters. Following the methodology from HC16, dwelling conversion factors were calculated from a question in the adult demographic street survey that asked respondents to provide the number of people<sup>14</sup> they lived with in any of the uninhabitable dwelling types during the past 6 months. Distinct conversion factors were calculated for each type of dwelling by taking the weighted average of the responses by family type (i.e., individual and family). In other words, separate conversion factors were calculated for individuals and households with children for each type of dwelling, resulting in 10 conversion factors (see Table 8.4.1 for the conversion factors applied to the dwelling PIT counts and the proportion of individuals and families living in each of the dwelling types). We found that 5.21%, 2.21%, 3.22%, 0.58%, and 0.57% of individuals living in cars, vans, RVs or campers, tents, and makeshift shelters, respectively, were members of families. The conversion factors were then applied to the raw PIT street counts for the various dwelling types. As in prior homeless counts, we did not estimate the number of youth living in uninhabitable dwellings.

Table 7.3.1. Dwelling Conversion Factors

---

<sup>12</sup> Note that in the final youth sample, one stratum, 35, had two weights due to the addition of 14 CTs to the sample following selection (see Section 3.4 for more details).

<sup>13</sup> Response rates were predicted using a logistic regression. The dependent variable was a binary variable equal to 1 if an eligible individual responded to the survey and 0 if an eligible individual chose not to respond. Independent variables included in the model were the interviewers' observations of age, race, ethnicity, and gender, as well as strata-fixed effects to incorporate any differences in response rates due to location. The final nonresponse adjustment was then calculated as the average predicted response rate for each stratum. The nonresponse adjustment for strata with 100% response rates was set to 1. The nonresponse adjustment ranged from roughly .32 to 1.

<sup>14</sup> Note that this number was top coded to a maximum of 10 people to control for outliers.

Type	Dwelling Type	N	M	Proportion of Total Living in Dwelling
Individuals	Car	639	1.518	94.79%
	Van	277	1.772	97.79%
	RV/camper	350	2.050	96.78%
	Tent	1,809	1.691	99.42%
	Makeshift shelter	1,210	1.916	99.43%
Families	Car	51	2.963	5.21%
	Van	6	3.458	2.21%
	RV/camper	9	3.519	3.22%
	Tent	17	3.777	.58%
	Makeshift shelter	11	3.688	.57%

#### 7.4. Annualized Estimates

Consistent with HC16, we used a formula modified from Burt and Wilkins (2005) to calculate the annualized estimates. Specifically, Burt and Wilkins (2005) asserted that annualized estimates in an area should be calculated as:

$$\text{Annual Estimate} = A + ((B * 51) * (1 - C))$$

where:

A = PIT count of currently homeless (CH) people, including adults and children

B = Number of CH adults and children who (1) became homeless during the last 7 days, whether for the first time or not, or (2) were already homeless but just entered the boundaries of the community during the past 7 days

C = Proportion of CH adults and children in A who had a previous homeless episode during the past 12 months

However, this formula does not account for the calculation of estimates by subpopulation. To account for subpopulation estimates, following HC16, we revised Burt and Wilkins' (2005) formula to the following equation for subgroup g:

$$\text{Annual Estimate}_g = PP_j * [A_g(1 + ((S_g * 51) * (1 - C_g)))]$$

where:

$A_g$  = PIT count for subgroup g at the CoC level

$S_g$  = Proportion of homeless individuals during the last 7 days,<sup>15</sup> or homeless individuals who entered the area during the past 7 days for subgroup g<sup>16</sup> at the CoC level

<sup>15</sup> This year, to calculate the length of stay for the shelter count, we used a different method than that used in 2016. In 2016, length of stay was defined as time spent in the shelter. For HC17, we calculated the length of shelter stay from the program start date and combined this with prior living situation and length of stay to determine whether the length of this homeless episode was 7 days or less. HMIS intake forms indicate that the length of stay variable refers to the prior living situation, not the current. This has been confirmed with LAHSA staff. We believe this is the reason for the large discrepancy in proportions between last year and this year.

<sup>16</sup> This year, the youth survey dropped the questions about the length of time in Los Angeles County and whether participants had left the county in the last 7 days, so we could only capture individuals who stated they became

$C_g$  = Proportion of individuals who had a previous homeless spell in the past 12 months<sup>17</sup> for subgroup g at the CoC level

$PP_j$  = Ratio of jurisdiction j's total estimated PIT count relative to the estimated CoC population

As an illustration, we calculated the following CoC annualized estimates for the following subgroup g:

Subgroup (g)	A <sub>g</sub>	S <sub>g</sub>	C <sub>g</sub>	Annualized <sub>g</sub>
Total	55,188			<b>122,384</b>
Sheltered adults	12,576	0.0195	0.5638	18,021
Sheltered youth	1,396	0.0466	0.5225	2,979
Unsheltered adults	36,765	0.0271	0.1749	78,666
Unsheltered youth	4,451	0.1654	0.5135	22,718

This method takes into consideration the proportion of newly homeless individuals each week (S) and assumes that this flow (proportion) of newly homeless is constant each week of the year, except for the week of the PIT count, which is why it was multiplied by 51 weeks. This number was then adjusted for duplicates by multiplying it by the proportion of people who had not been previously homeless in the past year (1-C). This helped to ensure that this proportion represented only participants who had new spells of homelessness or were new to the area. The 52nd week of the year was captured by the current homeless count, represented by the PIT count (A). It was also assumed that this number represented the stock of homeless people in a week. Therefore, to determine the number of newly homeless individuals in the remaining 51 weeks of the year, this number was multiplied by 51 weeks and adjusted by the duplicate adjusted flow (proportion) of newly homeless individuals as previously described. All estimated proportions for the unsheltered were weighted to generate population estimates.

It should be noted that because estimates were unstable at jurisdiction levels smaller than the CoC, we used a proportional allocation. Therefore, to allocate annualized estimates to jurisdictions smaller than the CoC, the proportion of the jurisdiction total estimated PIT count relative to that of the CoC was applied to the CoC annualized estimate.

## 7.5. Subpopulation Estimates and SE

Standard errors were calculated to determine the precision of the estimates. Standard errors were calculated taking into consideration the sampling method and the complex interactions required

---

homeless this time in the last 7 days, which caused a downward bias of the unsheltered youth annualized estimates. To compensate, we use the estimate from the 2016 data; in 2016 the question on when they entered the county was asked. The estimate based on the data collected in 2017, i.e., how long homeless this time, was 0.0745, which resulted in an estimate of 12,682 for the CoC.

<sup>17</sup> In the HMIS information for the sheltered population, while there was information on the number of homeless spells in the last three years, there was no information for the past year. We adjust the percentage homeless more than once in the past three years for the shelter population by the ratio of the one year to three year measure taken from the data in the youth and adult demographic surveys. The percent homeless more than once in the past three years was 68.5% and 55.8% for youth and adults, respectively. The adjustments based on the surveys were 82.4% and 93.7% for youth and adults.

to calculate the estimates. Standard errors were estimated using Taylor-linearized variance estimation. Just as in previous years, the standard error calculations assumed the shelter counts were measured without error and the dwelling multipliers were constant; therefore, they were assumed to contain no error. A breakdown of the standard error calculations is as follows:

1. If the estimate was derived by multiplying a count (N) by an estimated proportion (pp), for a particular subpopulation group (g), then the standard error was calculated as:

$$Se_g = N * se_{g,pp}$$

In this equation,  $se_{g,pp}$  is the standard error of the proportion for subpopulation g. Note that for adult street count estimates, individuals and families were estimated separately. All individuals were assumed to be aged or 25 or older; therefore, no measurement error existed (i.e., we did not have to estimate percentage age categories for this group). However, for households with children, separate counts were calculated for individuals under age 18, TAY between the ages of 18 and 24, and members aged 25 or older. Because these age percentages had to be estimated from the demographic survey, they were estimated with error. Therefore, standard errors were calculated as previously described.

2. If the estimate was derived from an estimated count (n) multiplied by an estimated proportion (pp) for a particular subgroup (i), then the standard error was calculated as:

$$se_g = \sqrt{se_n^2 * se_{g,pp}^2 + pp_g^2 * n^2 * \left( \frac{se_{g,pp}^2}{pp_g^2} + \frac{se_n^2}{n^2} \right)}$$

Notice that if there was no standard error for the count, this equation reduces to the prior equation.

3. If the estimate was derived by summing across samples (e.g., unsheltered female youth plus unsheltered female adults) and data sources (e.g., sheltered and unsheltered women) then the standard errors were calculated as simply the square root of the sum of the squared standard errors.

## 7.6. Postproduction Adjustments for Totals

To ensure that all geographical subunits added up to the CoC totals, we scaled the SPA, supervisorial district (SD), and council district (CD) estimates proportionally to the CoC totals. Specifically, we took the ratio of the CoC population to the total estimated SPA, SD, and CD estimates and multiplied all of the SPA, SD, and CD estimates by this factor so that when summed they would total the CoC population. Mathematically, this adjustment was calculated as follows:

$$D_j = \frac{P}{P_j}$$

where  $D_j$  is the adjustment factor for geography (SPA, SD, or CD)  $j$ ,  $P$  is the estimate for the total CoC homeless population, and  $P_j$  is the total population estimate for geography  $j$ . We also applied this adjustment to the standard errors reported in the appendices.

## **Section 8: Producing Overall Estimates**

Following the methodology described in Sections 7 and 8, estimates for the sheltered count and unsheltered (street) count were generated by age and household type for all of the various geographical levels (CoC, SPA, SD, and CD) and subpopulations. A visual demonstration of this process can be found in Figure 1 in Appendix C. Once estimates were derived for each shelter–age and street–age combination by household type separately, we summed the shelter–age–household and street–age–household combinations to find the total count of homeless individuals for each of the various demographic and subpopulation categories of interest. Note that to avoid rounding errors and ensure all estimates added up to the total, we had to estimate prevalence rates of demographic and subpopulation categories separately for each shelter–age–household and street–age–household combination and then sum all of the outcomes.

**Appendix A**

**Adult Demographic Survey**

## **2017 Homeless Count Demographic Survey**

### **Los Angeles Homeless Services Authority**

**Interviewer Instructions:** Any text that is **bold** should be read aloud to the survey respondent. Directions and prompts, along with additional information for clarification are included in italics. Directions on question logic, such as skipping questions, is in **red**. Please skip questions only when directed by these prompts. Single choice responses are indicated by bubbles, while multiple selection responses are indicated by check boxes. The Staff Use Only section is for the interviewer to fill out after the survey has been completed.

Before we begin, I want to remind you that this interview is completely voluntary and confidential. If we should come to any questions you don't want to answer, just let me know and we will go on to the next question. In this interview, we are interested in the opinions and living conditions of different people throughout Los Angeles County. I will ask you questions about your experience with housing, services, and other things. I think you'll find the questions interesting and you'll want to give them careful thought.

If you qualify for survey participation, you will receive a \$5 dollar McDonald's or Subway card for your time. It will take around 10-20 minutes.

The results of this survey will be used to improve the quality and variety of housing and services available. Your answers are completely confidential. Any question that you do not want to answer will not affect your eligibility for or receipt of services. Also, it will not affect your eligibility to receive the food card.

Do you understand the purpose of the survey, and that your answers will be kept confidential?

- Yes Continue with the Demographic Survey
- No Please re-read the introduction and confidentiality statement one more time before going to next participant.

**1. Have you received a gift card after taking a survey in the past two months?**

- Yes  
 No

If yes, thank them for their time and continue to the next person.

**2. This question determines if you will be eligible to take the complete survey. Where have you spent most of your nights in the last 30 days? Wait for response, then select the choice closest to their answer. If asked to clarify, ask, "Have you spent more than two weeks out of the past month in the same place? If so, where was that?"**

If any answer in the RED BOX is selected, say "I'm sorry, you do not qualify for the Demographic Survey. Thank you for your time." then skip to FOR STAFF ONLY (page 18). If any other choice is selected, continue below.

You are eligible to complete the Survey. First I'm going to ask you some questions about you and your personal experiences.

**3. What are your initials? Enter first and last.**

--	--

**6. How old were you the FIRST TIME you were homeless?**

--

**4. What is your date of birth?**

Month      Day      Year

--	--	--

**7. How long have you been homeless THIS TIME?**

Day(s)	
Week(s)	
Month(s)	
Year(s)	

**5. Is this the first time you have been homeless?**

- Yes  
 No

If answer to Question 5 is Yes, skip to Question 7.

**8. IN THE PAST 6 MONTHS, have you lived in any of the following situations? List each category below, and check the appropriate box. If they have not lived in the situation, do not check the box.**  
*Note: a makeshift shelter is a structure made of available materials that is not meant for human habitation.*

- Have you lived in a Car?
- Have you lived in a Van?
- Have you lived in a RV/Camper?
- Have you lived in a Tent?
- Have you lived in a Makeshift shelter?
- None of the Above
- Declined
- Don't Know

**9. In each of the following situations, can you tell me how many other people lived with you, NOT including yourself? Leave text boxes blank if respondent does not know or declines to answer. If the respondent lived alone, write in 0 (zero).**

Car	
Van	
RV/ Camper	
Tent	
Makeshift shelter	

**10. IN THE PAST YEAR, including this time, how many separate times have you experienced homelessness, on the street, in a vehicle or in shelters? For example, if the respondent has been housed one time for a short period in the past year and they were homeless before and after that, that means two separate episodes or experiences of homelessness took place.**

- 1 time
- 2 to 3 times
- 4 or more times
- Declined
- Don't know

**11. IN THE PAST THREE YEARS, what about the number of separate times you experienced homelessness, on the street, in a vehicle or in shelters?**

- 1 time
- 2 to 3 times
- 4 or more times
- Declined
- Don't know

**12. IN THE PAST THREE YEARS, have you stayed in shelters or on the streets for longer than A YEAR in total?**

- Yes
- No
- Declined
- Don't know

**13. What is your gender identity? Choose one answer**

- Male
- Female
- Transgender male to female
- Transgender female to male
- Don't identify as male, female, or transgender
- Other (Specify): \_\_\_\_\_
- Declined
- Don't know

**14. Do you identify as Hispanic or Latino? If yes, read each category that starts with "Yes" and choose all that apply.**

- No, not of Hispanic, Latino, or Spanish origin
- Yes, Mexican, Mexican American, Chicano
- Yes, Puerto Rican
- Yes, Cuban
- Yes, another Hispanic, Latino, or Spanish origin (specify): \_\_\_\_\_
- Don't know
- Declined

**15. What race do you identify with? Read each category and choose all that apply.**

- White
- Black or African-American
- American Indian or Alaska Native (Specify enrolled or principal tribe): \_\_\_\_\_
- Asian Indian
- Chinese
- Filipino
- Japanese
- Korean
- Vietnamese
- Native Hawaiian
- Guamanian or Chamorro
- Samoan
- Other Asian (specify): \_\_\_\_\_
- Other Pacific Islander (specify): \_\_\_\_\_
- Some other race (specify): \_\_\_\_\_
- Don't know
- Declined

**16. Which of the following best represents your sexual orientation?**

- Straight
- Gay or lesbian
- Bisexual
- Unsure/ Questioning
- Other (Specify): \_\_\_\_\_
- Declined
- Don't know

**17. Have you served on ACTIVE DUTY in the U.S. Armed forces (Army, Air force, Navy, Marine Corps, or Coast Guard?)**

- Yes
- No
- Declined
- Don't know

**18. Were you called into ACTIVE DUTY as a member of the National Guard or as a reservist?**

- Yes
- No
- Declined
- Don't know

If answer to either Question 17 or Question 18 is Yes, complete Questions 19 and 20. Otherwise, skip to the next prompt.

**19. What is your discharge status? If none of the below answers are given, select Unverified.**

- Honorable
- General
- Uncharacterized
- Bad conduct
- Dishonorable
- Other than honorable
- Still on active duty
- Unverified
- Declined
- Don't know

If Unverified is selected for Question 19, skip Question 20.

**20. Which years did you serve? Wait for response and choose ALL that apply.**

- 1940 - 1947 (World War II)
- 1947 - 1950 (Between WWII and Korean War)
- 1950 - 1955 (Korean War)
- 1955 - 1964 (Between Korean War and Vietnam)
- 1964 - 1975 (Vietnam)
- 1975 - 1991 (Post-Vietnam)
- 1991 - 2001 (Persian Gulf)
- 2001 - Present (Post 9/11)
- Declined
- Don't know

Now I'm going to ask you some questions about people who live with you. Depending on how many people you live with and who they are, I may ask additional questions about them.

**21. NOT including yourself, how many adults and children are currently living with you in your household? Only fill in answers if the person is living with at least one other person.**

Adults over 24

Adults 18 to 24

Children under 18

Adults over 24	
Adults 18 to 24	
Children under 18	

The next section is for families that include at least one adult over 18, and one child under 18 years of age. If the respondent does not indicate that they live with at least one child under the age of 18, skip to Page 11.

Thank you again. Now I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you give me. As a reminder, all answers are confidential.

**What are the initials or a nickname of other people in your household from oldest to youngest? Fill in the initials of each family member in the boxes below. Complete the responses in each column for each family member.**

Question	Person 2	Person 3	Person 4	Person 5	Person 6
22. What are the initials or a nickname of other people in your household from oldest to youngest?					
<p>Next I'm going to ask some questions about the people you live with. I'm going to refer to them by the initial(s) or nickname(s) you gave me. Refer to the person by initials or by nick name provided above. Finish all questions for each person before continuing to the next family member.</p>					
23. How is [initials] related to you?	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family
24. How old is [initials]? If the family member is a child under a year old, approx. their age in decimals. e.g., six months old = .5					
25. What is [initials]'s gender identity? <i>Choose one answer.</i>	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> Transgender male to female <input type="radio"/> Transgender female to male <input type="radio"/> Doesn't identify as male, female, or transgender <input type="radio"/> Other (Specify)  <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> Transgender male to female <input type="radio"/> Transgender female to male <input type="radio"/> Doesn't identify as male, female, or transgender <input type="radio"/> Other (Specify)  <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> Transgender male to female <input type="radio"/> Transgender female to male <input type="radio"/> Doesn't identify as male, female, or transgender <input type="radio"/> Other (Specify)  <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> Transgender male to female <input type="radio"/> Transgender female to male <input type="radio"/> Doesn't identify as male, female, or transgender <input type="radio"/> Other (Specify)  <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Male <input type="radio"/> Female <input type="radio"/> Transgender male to female <input type="radio"/> Transgender female to male <input type="radio"/> Doesn't identify as male, female, or transgender <input type="radio"/> Other (Specify)  <input type="radio"/> Declined <input type="radio"/> Don't know

Initials					
<b>26. Is [initials] Hispanic or Latino? Read each category and choose all that apply.</b>	<input type="radio"/> No, not of Hispanic, Latino, or Spanish origin <input type="radio"/> Yes, Mexican, Mexican American, Chicano <input type="radio"/> Yes, Puerto Rican <input type="radio"/> Yes, Cuban <input type="radio"/> Yes, another Hispanic, Latino, or Spanish origin (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> No, not of Hispanic, Latino, or Spanish origin <input type="radio"/> Yes, Mexican, Mexican American, Chicano <input type="radio"/> Yes, Puerto Rican <input type="radio"/> Yes, Cuban <input type="radio"/> Yes, another Hispanic, Latino, or Spanish origin (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> No, not of Hispanic, Latino, or Spanish origin <input type="radio"/> Yes, Mexican, Mexican American, Chicano <input type="radio"/> Yes, Puerto Rican <input type="radio"/> Yes, Cuban <input type="radio"/> Yes, another Hispanic, Latino, or Spanish origin (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> No, not of Hispanic, Latino, or Spanish origin <input type="radio"/> Yes, Mexican, Mexican American, Chicano <input type="radio"/> Yes, Puerto Rican <input type="radio"/> Yes, Cuban <input type="radio"/> Yes, another Hispanic, Latino, or Spanish origin (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> No, not of Hispanic, Latino, or Spanish origin <input type="radio"/> Yes, Mexican, Mexican American, Chicano <input type="radio"/> Yes, Puerto Rican <input type="radio"/> Yes, Cuban <input type="radio"/> Yes, another Hispanic, Latino, or Spanish origin (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know

Initials					
<b>27. What race is [initials]? Read each category and choose all that apply.</b>	<input type="radio"/> White <input type="radio"/> Black or African-American <input type="radio"/> American Indian or Alaska Native (Specify enrolled or principal tribe): <hr/> <input type="radio"/> Asian Indian <input type="radio"/> Chinese <input type="radio"/> Filipino <input type="radio"/> Japanese <input type="radio"/> Korean <input type="radio"/> Vietnamese <input type="radio"/> Native Hawaiian <input type="radio"/> Guamanian or Chamorro <input type="radio"/> Samoan <input type="radio"/> Other Asian (specify): <hr/> <input type="radio"/> Other Pacific Islander (specify): <hr/> <input type="radio"/> Some other race (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> White <input type="radio"/> Black or African-American <input type="radio"/> American Indian or Alaska Native (Specify enrolled or principal tribe): <hr/> <input type="radio"/> Asian Indian <input type="radio"/> Chinese <input type="radio"/> Filipino <input type="radio"/> Japanese <input type="radio"/> Korean <input type="radio"/> Vietnamese <input type="radio"/> Native Hawaiian <input type="radio"/> Guamanian or Chamorro <input type="radio"/> Samoan <input type="radio"/> Other Asian (specify): <hr/> <input type="radio"/> Other Pacific Islander (specify): <hr/> <input type="radio"/> Some other race (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> White <input type="radio"/> Black or African-American <input type="radio"/> American Indian or Alaska Native (Specify enrolled or principal tribe): <hr/> <input type="radio"/> Asian Indian <input type="radio"/> Chinese <input type="radio"/> Filipino <input type="radio"/> Japanese <input type="radio"/> Korean <input type="radio"/> Vietnamese <input type="radio"/> Native Hawaiian <input type="radio"/> Guamanian or Chamorro <input type="radio"/> Samoan <input type="radio"/> Other Asian (specify): <hr/> <input type="radio"/> Other Pacific Islander (specify): <hr/> <input type="radio"/> Some other race (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> White <input type="radio"/> Black or African-American <input type="radio"/> American Indian or Alaska Native (Specify enrolled or principal tribe): <hr/> <input type="radio"/> Asian Indian <input type="radio"/> Chinese <input type="radio"/> Filipino <input type="radio"/> Japanese <input type="radio"/> Korean <input type="radio"/> Vietnamese <input type="radio"/> Native Hawaiian <input type="radio"/> Guamanian or Chamorro <input type="radio"/> Samoan <input type="radio"/> Other Asian (specify): <hr/> <input type="radio"/> Other Pacific Islander (specify): <hr/> <input type="radio"/> Some other race (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> White <input type="radio"/> Black or African-American <input type="radio"/> American Indian or Alaska Native (Specify enrolled or principal tribe): <hr/> <input type="radio"/> Asian Indian <input type="radio"/> Chinese <input type="radio"/> Filipino <input type="radio"/> Japanese <input type="radio"/> Korean <input type="radio"/> Vietnamese <input type="radio"/> Native Hawaiian <input type="radio"/> Guamanian or Chamorro <input type="radio"/> Samoan <input type="radio"/> Other Asian (specify): <hr/> <input type="radio"/> Other Pacific Islander (specify): <hr/> <input type="radio"/> Some other race (specify): <hr/> <input type="radio"/> Declined <input type="radio"/> Don't know
<b>If family member is under 18 in Question 24, skip to question 29.</b> <b>28. Which of the following best represents [initials]'s sexual orientation?</b>	<input type="radio"/> Straight <input type="radio"/> Gay or lesbian <input type="radio"/> Bisexual <input type="radio"/> Unsure/ Questioning <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Straight <input type="radio"/> Gay or lesbian <input type="radio"/> Bisexual <input type="radio"/> Unsure/ Questioning <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Straight <input type="radio"/> Gay or lesbian <input type="radio"/> Bisexual <input type="radio"/> Unsure/ Questioning <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Straight <input type="radio"/> Gay or lesbian <input type="radio"/> Bisexual <input type="radio"/> Unsure/ Questioning <input type="radio"/> Declined <input type="radio"/> Don't know	<input type="radio"/> Straight <input type="radio"/> Gay or lesbian <input type="radio"/> Bisexual <input type="radio"/> Unsure/ Questioning <input type="radio"/> Declined <input type="radio"/> Don't know

<b>35. Which years did [initials] serve? Wait for response and choose ALL that apply.</b>	<input type="checkbox"/> 1940-1947 (World War II) <input type="checkbox"/> 1947 - 1950 (Between WWII-Korean War) <input type="checkbox"/> 1950 - 1955 (Korean War) <input type="checkbox"/> 1955 - 1964 (Between Korean War-Vietnam) <input type="checkbox"/> 1964 - 1975 (Vietnam) <input type="checkbox"/> 1975 - 1991 (Post-Vietnam) <input type="checkbox"/> 1991 - 2001 (Persian Gulf) <input type="checkbox"/> 2001 - Present (Post 9/11) <input type="checkbox"/> Declined <input type="checkbox"/> Don't know	<input type="checkbox"/> 1940-1947 (World War II) <input type="checkbox"/> 1947 - 1950 (Between WWII-Korean War) <input type="checkbox"/> 1950 - 1955 (Korean War) <input type="checkbox"/> 1955 - 1964 (Between Korean War-Vietnam) <input type="checkbox"/> 1964 - 1975 (Vietnam) <input type="checkbox"/> 1975 - 1991 (Post-Vietnam) <input type="checkbox"/> 1991 - 2001 (Persian Gulf) <input type="checkbox"/> 2001 - Present (Post 9/11) <input type="checkbox"/> Declined <input type="checkbox"/> Don't know	<input type="checkbox"/> 1940-1947 (World War II) <input type="checkbox"/> 1947 - 1950 (Between WWII-Korean War) <input type="checkbox"/> 1950 - 1955 (Korean War) <input type="checkbox"/> 1955 - 1964 (Between Korean War-Vietnam) <input type="checkbox"/> 1964 - 1975 (Vietnam) <input type="checkbox"/> 1975 - 1991 (Post-Vietnam) <input type="checkbox"/> 1991 - 2001 (Persian Gulf) <input type="checkbox"/> 2001 - Present (Post 9/11) <input type="checkbox"/> Declined <input type="checkbox"/> Don't know	<input type="checkbox"/> 1940-1947 (World War II) <input type="checkbox"/> 1947 - 1950 (Between WWII-Korean War) <input type="checkbox"/> 1950 - 1955 (Korean War) <input type="checkbox"/> 1955 - 1964 (Between Korean War-Vietnam) <input type="checkbox"/> 1964 - 1975 (Vietnam) <input type="checkbox"/> 1975 - 1991 (Post-Vietnam) <input type="checkbox"/> 1991 - 2001 (Persian Gulf) <input type="checkbox"/> 2001 - Present (Post 9/11) <input type="checkbox"/> Declined <input type="checkbox"/> Don't know	<input type="checkbox"/> 1940-1947 (World War II) <input type="checkbox"/> 1947 - 1950 (Between WWII-Korean War) <input type="checkbox"/> 1950 - 1955 (Korean War) <input type="checkbox"/> 1955 - 1964 (Between Korean War-Vietnam) <input type="checkbox"/> 1964 - 1975 (Vietnam) <input type="checkbox"/> 1975 - 1991 (Post-Vietnam) <input type="checkbox"/> 1991 - 2001 (Persian Gulf) <input type="checkbox"/> 2001 - Present (Post 9/11) <input type="checkbox"/> Declined <input type="checkbox"/> Don't know

**Thank you for answering those questions about people you live with. Next I'm going to ask you some additional personal questions about you. These questions are about your health and different life experiences you have had. As a reminder, your answers are confidential. Due to the personal nature of some of the questions, we have a response card for you to tell me the number that corresponds to your answer.**

**36. Do you have, have you ever had, or has a healthcare provider ever told you that you have any of the following health conditions? Please use the response card.**

- Problematic alcohol use
- Problematic drug use
- Serious and long continuing mental illness (e.g., depression, bipolar disorder, or schizophrenia)
- Physical disability
- Physical illness (chronic or ongoing)
- HIV / AIDS-related illness
- Severe depression (chronic or ongoing)
- Post-Traumatic Stress Disorder (PTSD)
- Traumatic Brain Injury (TBI)
- Developmental disability
- None of the above
- Declined
- Don't know

**37. Do you have any other ongoing health conditions?** If yes, write in any answers provided in the space below. If they do not wish to disclose information about their medical condition, leave the space blank.

- No
- Yes (Specify): \_\_\_\_\_
- Declined
- Don't know

If respondent answers "None of the above," "Declined," or "Don't know," for question 36 and "No," "Declined," or "Don't know" for Question 37, skip Question 38 and move on to Question 39.

**38. Is your medical condition or disability either permanent or long-term?**

- Yes
- No
- Declined
- Don't know

*Make sure that the person being interviewed is safe from immediate threats of violence before asking the next three questions. If you do not feel that the situation is safe to ask questions about domestic violence, select "Safety concern" for Questions 39, 40 and 41 (on the next page).*

**I'm about to ask three sensitive and personal questions about experiences with violence. Do you feel comfortable answering? If the answer is No, select Declined for questions 39, 40 and 41. If the answer is Unsure or Yes, offer to move to a more private location if the respondent would be more comfortable answering the questions. Please use the response card.**

**39. Have you experienced any of the following forms of violence or abuse? Please use the response card. If the person is not comfortable responding to the question, select Declined.**

- Neglect by parent, guardian, or other relative
- Physical abuse by parent, guardian, or other relative
- Sexual abuse by parent, guardian, or other relative
- Physical abuse by intimate partner or spouse
- Sexual abuse by intimate partner or spouse
- Dating violence
- Stalking
- None of the above
- Declined
- Don't know
- Safety concern

**40. Are you currently fleeing violence? Please use the response card. If the person is not comfortable responding to the question, select Declined.**

- Yes
- No
- Declined
- Don't know
- Safety concern

**41. Have you ever been forced, threatened, or pressured into performing a sex act with another person and the person(s) that forced you received payment or anything of value in exchange for this act? Please use the response card. If the person is not comfortable responding to the question, select Declined.**

- Yes
- No
- Declined
- Don't know
- Safety concern

**42. IN THE PAST 12 MONTHS, how many times have you visited the emergency room or hospital?**

- No visits
- 1 or more (Please specify the number) \_\_\_\_\_
- Declined
- Don't know

If No visits, Declined, or Don't know is selected, skip to Question 45.

**43. Were you homeless AT THE TIME that you entered the emergency room or hospital?**

- Yes
- No
- Declined
- Don't know

**44. Were you offered services to help you find stable housing while you were in the emergency room or hospital? E.g., services offered by a health professional or social worker as part of a discharge plan.**

- Yes
- No
- Declined
- Don't know

**45. This next question is about involvement in different legal systems. If you don't know or don't want to answer, let me know. Otherwise, say "yes" if you have ever been involved in any of the following systems. Please read each option and choose ALL that apply. Choose None of the above if none apply.**

- Foster Care
- Juvenile Detention or Probation Camp
- Juvenile probation
- Mandated stay in inpatient or outpatient mental health treatment facility
- Jail or Prison →
- Adult Probation →
- Parole →
- None of the above
- Declined
- Don't know

If the following options are selected, ask Question 46. Otherwise, skip to Question 51 on the next page.

**46. Were you released as an AB 109 probationer, meaning you were a lower-level offender and after being released from a State prison you report to, or reported to, a local county probation officer?**

- Yes
- No
- Declined
- Don't know

**47. Were you released as a result of re-sentencing and had your charge downgraded under Proposition 47, the Reduced Penalties Initiative?**

- Yes
- No
- Declined
- Don't know

**48. The last question was about lifetime experiences. Have you been released from a correctional institution such as juvenile detention, jail, or prison IN THE LAST 12 MONTHS?**

- Yes
- No
- Declined
- Don't know

**49. Were you homeless AT THE TIME that you entered jail or prison? If the respondent was arrested or convicted while they were without stable housing.**

- Yes
- No
- Declined
- Don't know

**50. Were you offered services to help you find stable housing while you were in jail or prison, or shortly after? Were services offered to aid in housing stability as part of being in jail or prison, before release, at release, or shortly after release.**

- Yes
- No
- Declined
- Don't know

**51. What is the highest level of education you've completed? Wait for response and select the category that applies.**

- No schooling completed
- Nursery School to 4th Grade
- 5th or 6th grade
- 7th or 8th grade
- 9th grade
- 10th grade
- 11th grade
- 12th grade
- High school diploma
- GED
- Post-secondary school, community college, or trade school
- 4-year college degree
- Graduate school
- Declined
- Don't know

Now I'm going to ask you a series of questions about WHERE you lived before you lost stable housing.

**52. IN THE PAST 7 DAYS, have you spent one or more nights outside of LA County?**

- Yes
- No
- Declined
- Don't know

**53. Have you ever lived outside of LA County?**

- Yes
- No
- Declined
- Don't know

If No is selected, skip to question 56 on the next page.

**54. How long has it been since you moved or moved back to LA County?**

Day(s)	
Week(s)	
Month(s)	
Year(s)	

**55. Before the last time you lost your housing, where were you living? Read each response and choose one answer.**

- Los Angeles County
- Other county in Southern California (Kern, Imperial, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, or Ventura)
- Other county in California
- Out of state
- Outside of the United States
- Declined
- Don't know

If Los Angeles County is selected, ask Question 56.  
Otherwise, Skip to Question 57.

**56. What city or community in LA County did you live in before you lost your housing? If the answer is LA, Los Angeles (City), please ask: "What neighborhood"**

**57. What do you think are some of the main reasons or conditions that led to your loss of housing? Wait for response and choose ALL that apply.**

- Break-up, divorce, or separation
- Child support issues
- Conflicts with family or household members
- Death or illness of family member or child
- Kicked out of home due to sexual orientation/gender identity
- No friends or family available
- Domestic violence, parental abuse, partner abuse, dating violence, or stalking
- Physical Safety Concerns (e.g., gang related violence)
- Eviction or foreclosure
- Uninhabitable living conditions
- Timed out or left previous housing program
- Unemployment or financial reasons
- Medical, physical disability or illness
- Mental health issues
- Problematic alcohol or drug use
- Released from hospital, treatment facility, or other institution
- Release from jail or prison
- Recent immigration
- Left or aged out of foster care
- Declined
- Don't know

Other (Specify): \_\_\_\_\_

If Eviction or Foreclosure is selected,  
ask Question 58. Otherwise, skip to  
Question 59.

**58. Did you receive any rental or utilities assistance before you lost housing?**

- Yes
- No
- Declined
- Don't know

**This next series of questions is about challenges and specific barriers that you might face in addition to not having a stable and safe place to stay.**

**59. Do you have difficulty accessing any of the following basic services in the area you usually stay? Read all choices and choose all that apply.**

- Restroom
- Storage facility/ Place to put belongings
- Shower
- Food and water
- Easy to access all of the above
- Declined
- Don't know

**60. How important are the following services to you? (5-point scale: 1-Not Important, 2- Less Important, 3- Somewhat Important, 4-Important, 5-Very Important) If declined/ don't know, leave the response blank.**

	1 Not Important	2 Less Important	3 Somewhat Important	4 Important	5 Very Important
Assistance getting housing	1	2	3	4	5
Job training and Education	1	2	3	4	5
Available job opportunities	1	2	3	4	5
Assistance with public benefits (e.g. GR, SSI, VA)	1	2	3	4	5
Other non-job related financial services (debt relief, child care)	1	2	3	4	5
Maintaining residency in specific area (e.g. school district)	1	2	3	4	5
Domestic violence services: Consider intimate partner abuse/violence	1	2	3	4	5
Physical health treatment	1	2	3	4	5
Mental health/ illness treatment	1	2	3	4	5
Substance use disorder treatment (drug and/ or alcohol)	1	2	3	4	5
Disability services	1	2	3	4	5
Family counseling/ reuniting with family members or friends	1	2	3	4	5
Legal services (e.g. expungement, immigration services, child support)	1	2	3	4	5
Transportation services	1	2	3	4	5

**61. Do you live with any pets including service animals? If the response is "yes" ask, if so, how many pets do you have?**

- Yes (specify): \_\_\_\_\_
- No
- Declined
- Don't know

If response is No, Declined, or Don't know, skip to Question 63.

**62. Do you get turned down from shelters because they do not accept pets? List ALL choices except Declined and Don't Know.**

- Yes
- No
- Does not try to use services
- Declined
- Don't know

**63. Which of the following would best describe your employment situation? Read each category and select from the options below.**

- On disability
- Retired
- Full-time (more than 35 hours)
- Part-time (35 hours or less) \_\_\_\_\_
- Seasonal work (recurring temporary work) \_\_\_\_\_
- Temporary work (limited contract with termination date) \_\_\_\_\_
- Unemployed; actively looking for work \_\_\_\_\_
- Unemployed; not actively looking for work
- Unemployed; student
- None of the above
- Declined
- Don't know

If response is from selection, ask Question 64. Otherwise, skip to Question 66 on the next page.

**64. You said you are working less than full time. Are you looking for more work or more stable employment?**

- Yes
- No
- Declined
- Don't know

If No, Declined, or Don't know are selected, skip to Question 66 on the next page.

**65. In addition to not having a stable housing situation, you may face immediate barriers keeping you from getting stable work. These are challenges that disqualify you for a job, prevent you from applying, or cause you to get turned down. Have you faced any of the following barriers in looking for work? Read each category and choose all that apply.**

- You're unable to get interviewed
- You get interviewed, but get turned down
- You lack education requirements
- You lack experience
- No access to services to connect to jobs
- You get turned down for gaps in employment
- You need child care services
- You feel that you experience discrimination (e.g., race, gender, sexual orientation, religion, age)
- You need transportation
- You need clean clothes
- You are limited by physical health problems
- You are limited by mental health problems
- You have substance use problems
- You need ID or a driver's license
- You need a Social Security Card or Birth Certificate
- You get turned down due to a criminal record.
- You not authorized to work in the US
- You get interviewed, but get turned down
- Any other reasons (Specify): \_\_\_\_\_
- None of the above
- Declined
- Don't know

**66. Do you have other ways of making money such as any of the following? Read each category and choose all that apply.**

- Panhandling
- Recycling
- Day labor
- Entertainment or street performance for money
- Sex work, that is, you got money to have sex and you got to keep that money
- Any other sources? (Specify):  
\_\_\_\_\_
- None of the above
- Declined
- Don't know

**67. Do you receive any of the following forms of government assistance? Read each category and choose ALL that apply.**

- CalWORKS / TANF
- CAPI - Cash Assistance Program for Immigrants
- Child support or survivor benefits
- State children's health insurance
- Food Stamps / EBT Card / CalFresh
- GR / GA - General Relief or Assistance
- Health Way LA
- Medicaid / Medi-Cal / LA Care
- Medicare
- SSI / SSDI / Disability
- SSA - Social Security Retirement
- Unemployment
- Veteran's Disability
- Veterans Medical Center / Veteran Benefits
- Veteran's Pension
- WIC - Women, Infants, and Children
- None at this time
- Declined
- Don't know

**68. What is your approximate monthly income, including cash benefits (e.g., SSI, GR) and any other sources of money?**

**Thank you for taking time to complete the Demographic Survey and for sharing this information about you and your experiences. Here is your food card! The questions on the following page are FOR STAFF ONLY and are required for survey completion.**

## FOR STAFF ONLY

Please select the Service Planning Area and Census Tract where you conducted the Demographic Survey

- SPA 1
- SPA 2
- SPA 3
- SPA 4
- SPA 5
- SPA 6
- SPA 7
- SPA 8

Census Tract *Six-digit code found on your map.*

Did you observe/ detect signs or symptoms of the following?

- Serious physical health condition
- Mental illness
- Alcohol or drug abuse
- No observations

Surveyor, what is that status of the survey?

- Complete (respondent was asked every question)
- Partial (respondent was asked some questions)
- Sheltered/Housed/Cannot Confirm

Did anyone help you fill out the survey? This could include an interpreter or a friend or relative assisting in answering questions.

- Yes
- No

Location / Intersection: the survey was conducted on the corners of

First Street

Second Street

AND/OR

Other (e.g.,  
landmark, park)

Interviewer Initials

Food Card Received?

- Yes
- No

**Appendix B**  
**Youth Demographic Survey**

## **2017 Youth Count Survey** **Los Angeles Homeless Services Authority**

**Interviewer Instructions:** Any text that is **bold** should be read aloud to the survey respondent. Directions and prompts, along with additional information for clarification are included in *italics*. Directions on question logic, such as skipping questions, is in **red**. Please skip questions only when directed by these prompts. Single choice responses are indicated by bubbles, while multiple selection responses are indicated by check boxes. The Staff Use Only section (page 12) is for the interviewer to fill out after the survey has been completed.

**Confidentiality Agreement:**

Today we're conducting the Youth Count, which includes doing a brief survey that will help us better understand the housing and service needs of young people in the community, and bring additional resources to help youth.

Before we begin, I want to remind you that this interview is completely voluntary and confidential. If there are any questions you don't want to answer, just let me know and we'll go on to the next question.

If you qualify for survey participation, you'll receive a \$10 Subway gift card for your time. It will take around 10-15 minutes.

The results of this survey will be used to improve the quality and variety of housing and services available. Your answers are completely confidential. Any question that you don't want to answer will not affect your eligibility for or receipt of services. It also will not affect your eligibility to receive the Subway gift card, if eligible.

**1. Have you received a Subway card after participating in the LA Youth Count survey in the past week? If unsure, follow-up with further questions about specific survey questions.**

- Yes
- No

If yes, say, "Thank you for your time. We are only surveying people once. We appreciate you completing the survey." Continue to the next person.

The next two questions determine if you will be eligible to take the complete survey for a \$10 Subway card.

**2. What is your date of birth?**

Month      Day      Year

--	--	--

If date of birth is before 1/23/1992, the person is 25 or older and ineligible for the survey. Say, "I'm sorry, we are only surveying youth under 25. Thank you for your time." then skip to FOR STAFF ONLY (page 12).

If date of birth is on or after 1/23/1992, continue to Question 3.

**3. Where have you spent most of your nights in the last 30 days? Wait for response, then select the choice closest to their answer. If asked to clarify, ask, "Have you spent more than two weeks out of the past month in the same place? If so, where was that?"**

- |   |  |  |
|---|--|--|
| <ul style="list-style-type: none"><li><input type="radio"/> Emergency shelter</li><li><input type="radio"/> Hotel or motel</li><li><input type="radio"/> Transitional housing</li><li><input type="radio"/> Youth shelter</li><li><input type="radio"/> Hospital, substance abuse or psychiatric treatment facility</li><li><input type="radio"/> Jail or prison</li><li><input type="radio"/> Safe haven</li><li><input type="radio"/> Your own apartment or home</li><li><input type="radio"/> Apartment or home of a friend or family member</li><li><input type="radio"/> With someone unknown because you needed a place to stay</li><li><input type="radio"/> Foster care or group home</li><li><input type="radio"/> Declined</li><li><input type="radio"/> Don't know</li></ul> | <ul style="list-style-type: none"><li><input type="radio"/> Street, sidewalk, or alley</li><li><input type="radio"/> Bus or train stop/station, transit center or airport</li><li><input type="radio"/> Campground or woods</li><li><input type="radio"/> Park, beach, or riverbed</li><li><input type="radio"/> Under bridge or overpass</li><li><input type="radio"/> Other outdoor location</li><li><input type="radio"/> Abandoned building or parking lot</li></ul> | <ul style="list-style-type: none"><li><input type="radio"/> Car or truck</li><li><input type="radio"/> Van</li><li><input type="radio"/> RV or camper</li><li><input type="radio"/> Outdoor encampment or tent</li><li><input type="radio"/> Unconverted garage, attic, or basement</li><li><input type="radio"/> Other makeshift shelter not meant for human habitation</li></ul> |
|---|--|--|

If any answer in the RED BOX is selected, say "I'm sorry, we are not surveying youth who were housed, staying in shelters, or institutions for the majority of the past 30 days. Thank you for your time." then skip to FOR STAFF ONLY (page 12).

You are eligible to complete the Survey. First I'm going to ask you some questions about you and your characteristics.

**4. What are your initials? Enter first and last.**

--	--

**5. What is your gender identity? Choose one answer.**

- Male
- Female
- Transgender male to female
- Transgender female to male
- Don't identify as male, female, or transgender
- Other (Specify): \_\_\_\_\_
- Declined
- Don't know

**6. Do you identify as Hispanic or Latino? If yes, read each category that starts with "Yes" and choose all that apply.**

- No, not of Hispanic, Latino, or Spanish origin
- Yes, Mexican, Mexican American, Chicano
- Yes, Puerto Rican
- Yes, Cuban
- Yes, another Hispanic, Latino, or Spanish origin  
(specify): \_\_\_\_\_
- Declined
- Don't know

**7. What race do you identify with? Read each category and choose all that apply.**

- White
- Black or African-American
- American Indian or Alaska Native (Specify enrolled or principal tribe): \_\_\_\_\_
- Asian Indian
- Chinese
- Filipino
- Japanese
- Korean
- Vietnamese
- Native Hawaiian
- Guamanian or Chamorro
- Samoan
- Other Asian (specify): \_\_\_\_\_
- Other Pacific Islander (specify): \_\_\_\_\_
- Some other race (specify): \_\_\_\_\_
- Declined
- Don't know

**8. Which of the following best represents your sexual orientation?**

- Straight
- Gay or lesbian
- Bisexual
- Unsure/ Questioning
- Other (Specify): \_\_\_\_\_
- Declined
- Don't know

**9. Have you served on ACTIVE DUTY in the U.S.**

**Armed forces (Army, Air force, Navy, Marine Corps, or Coast Guard?)**

- Yes
- No
- Declined
- Don't know

**10. Were you called into ACTIVE DUTY as a member of the National Guard or as a reservist?**

- Yes
- No
- Declined
- Don't know

If answer to either Question 9 or Question 10 is Yes, complete Question 11. Otherwise, skip to the prompt at the bottom of the page, starting with "Now I'm going to ask..."

**11. What is your discharge status? If none of the below answers are given, select Unverified.**

- Honorable
- General
- Uncharacterized
- Bad conduct
- Dishonorable
- Other than honorable
- Still on active duty
- Unverified
- Declined
- Don't know

Now I'm going to ask you some personal questions about your living situation. These questions help us advocate for funding for housing and other services.

**12. How long have you been homeless THIS TIME?** Enter your best approximation of their response in the boxes below.

Days	
Weeks	
Months	
Years	

**13. Including this time, how many separate times have you experienced homelessness, on the street, in a vehicle or in shelters, IN THE PAST YEAR?** For example, if the respondent has been housed one time for a short period in the past year and they were homeless before and after that, that means two separate episodes or experiences of homelessness took place.

- 1 time
- 2 to 3 times
- 4 or more times
- Declined
- Don't know

**14. What about the number of separate times you experienced homelessness, on the street, in a vehicle or in shelters, IN THE PAST THREE YEARS?**

- 1 time
- 2 to 3 times
- 4 or more times
- Declined
- Don't know

**15. IN THE PAST THREE YEARS, have you stayed in shelters or on the streets for longer than A YEAR in total?**

- Yes
- No
- Declined
- Don't know

**16. IN THE PAST 6 MONTHS, have you lived in any of the following situations? List each category below, and check the appropriate box. If they have not lived in the situation, do not check the box.**  
Note: A makeshift shelter is a structure made of available materials that is not meant for human habitation.

- Have you lived in a Car?
- Have you lived in a Van?
- Have you lived in a RV/Camper?
- Have you lived in a Tent?
- Have you lived in a Makeshift shelter?
- None of the Above
- Declined
- Don't Know

**17. In each of the following situations, can you tell me how many other people lived with you, NOT including yourself? Leave text boxes blank if respondent does not know or declines to answer. If the respondent lived alone, enter 0 in the text boxes.**

Car	
Van	
RV/ Camper	
Tent	
Makeshift shelter	

Now I'm going to ask you some questions about people who live with you. Depending on how many people you live with and who they are, I may ask additional questions about them.

**18. NOT including yourself, how many adults and children are there in your household? A household can be a person living alone or living with others, or a group of people who live together and normally buy and prepare their food together. Only fill in answers if the person is living with at least one other person.**

Adults over 24

Adults 18 to 24

Under 18

The next section is for families that include at least one parent of any age, and one child under 18 years of age. If the respondent does not indicate that they live with at least one child under the age of 18, skip to the prompt at the bottom of Page 10.

Thank you again. Now, I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you give me. As a reminder, all answers are confidential.

What are the initials or a nickname of other people in your household from oldest to youngest? Fill in the initials or nickname of each family member in the boxes below. Complete the responses in each column for each family member.					
Question	Person 1	Person 2	Person 3	Person 4	Person 5
<b>19. What are the initials or a nickname of other people in your household from oldest to youngest?</b>					
<b>Next I'm going to ask some personal questions about the people you live with. I'll refer to them by the initial(s) or nickname(s) you gave me. Refer to the person by initials or by nick name provided above. Finish all questions for each person before continuing to the next family member.</b>					
<b>20. How is [initials] related to you?</b>	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family	<input type="radio"/> Child <input type="radio"/> Spouse <input type="radio"/> Other Family <input type="radio"/> Non-married partner <input type="radio"/> Other/Non-family
<b>21. How old is [initials]? If the family member is a child under a year old, approx. their age in decimals. e.g. six months old = .5</b>

**Thank you for answering those questions about people you live with. Next I'm going to ask you some additional personal questions about you. These questions are about your health and different life experiences you have had. As a reminder, your answers are confidential. Due to the personal nature of the questions, we have a response card for you to tell me the number that corresponds to your answer.**

**32. Do you have, have you ever had, or has a healthcare provider ever told you that you have any of the following health conditions?**  
Please use the response card.

- Problematic alcohol use
- Problematic drug use
- Serious and long continuing mental illness (e.g. depression, bipolar disorder, or schizophrenia)
- Physical disability
- Physical illness (chronic or ongoing)
- HIV / AIDS-related illness
- Severe depression (chronic or ongoing)
- Post-Traumatic Stress Disorder (PTSD)
- Traumatic Brain Injury (TBI)
- Developmental disability
- None of the above
- Declined
- Don't know

**33. Do you have any other ongoing health conditions?** If yes, write in any answers provided in the space below. If they do not wish to disclose information about their medical condition, leave the space blank.

- No
- Yes (Specify): \_\_\_\_\_
- Declined
- Don't know

If respondent answers "None of the above," "Declined," or "Don't know," for question 32 and "No," "Declined," or "Don't know" for Question 33, skip Question 34 and move on to Question 35.

**34. Is your medical condition or disability either permanent or long-term?**

- Yes
- No
- Declined
- Don't know

Make sure that the person being interviewed is safe from **IMMEDIATE THREATS OF VIOLENCE** before asking the next two questions.

If you do not feel that the situation is safe to ask about domestic violence, select "Safety concern" for questions 35 and 36 and continue to page 11.

I'm about to ask two sensitive and personal questions about experiences with violence. Do you feel comfortable answering? If the answer is No, select Declined for questions 35 and 36. If the answer is Unsure or Yes, offer to move to a more private location if the respondent would be more comfortable answering the questions. Please use the response card.

**35. Have you experienced any of the following forms of violence or abuse?** Please use the response card. If the person is not comfortable responding to the question, select Declined.

- Neglect by parent, guardian, or other relative
- Physical abuse by parent, guardian, or other relative
- Sexual abuse by parent, guardian, or other relative
- Physical abuse by intimate partner or spouse
- Sexual abuse by intimate partner or spouse
- Dating violence
- Stalking
- None of the above
- Declined
- Don't know
- Safety concern

**36. Have you ever been forced, threatened, or pressured into performing a sex act with another person and the person(s) that forced you received payment or anything of value in exchange for this act?** Please use the response card. If the person is not comfortable responding to the question, select Declined.

- Yes
- No
- Declined
- Don't know
- Safety concern

The remaining questions are optional if time permits. If not, thank the participant. Continue to page 12 to complete the Staff Use Only section.

**37. Before the last time you lost your housing, where were you living?**

- Los Angeles County
- Other county in Southern California (Kern, Imperial, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, or Ventura)
- Other county in California
- Out of state
- Outside of the United States
- Declined
- Don't know

If Los Angeles County is selected, ask Question 38.  
Otherwise, skip to Question 39.

**38. What city or community in LA County did you live in before you lost your housing? If the answer is LA, Los Angeles (City), please ask: "What neighborhood"**

**39. How important are the following services to you? (5-point scale: 1-Not Important, 2- Less Important, 3-Somewhat Important, 4-Important, 5-Very Important) If declined/ don't know, leave the response blank.**

	1 Not Important	2 Less Important	3 Somewhat Important	4 Important	5 Very Important
Assistance getting housing	1	2	3	4	5
Job training	1	2	3	4	5
Education	1	2	3	4	5
Available job opportunities	1	2	3	4	5
Assistance with public benefits (e.g. GR, SSI, VA)	1	2	3	4	5
Other non-job related financial services (debt relief, child care)	1	2	3	4	5
Maintaining residency in specific area (e.g. school district)	1	2	3	4	5
Domestic violence services: Consider intimate partner abuse/violence	1	2	3	4	5
Physical health treatment	1	2	3	4	5
Mental health/ illness treatment	1	2	3	4	5
Substance use disorder treatment (drug and/ or alcohol)	1	2	3	4	5
Disability services	1	2	3	4	5
Family counseling/ reuniting with family members or friends	1	2	3	4	5
Legal services (e.g. expungement, immigration services, child support)	1	2	3	4	5
Transportation services	1	2	3	4	5

**Thank you for taking time to complete the Youth Count Survey and for sharing this information about you and your experiences. We understand that it was personal, and we appreciate your willingness to complete the survey.**

Here is your Subway card!

## **FOR STAFF ONLY**

Please select the Service Planning Area and Census Tract where you conducted the Youth Count Survey

- SPA 1
- SPA 2
- SPA 3
- SPA 4
- SPA 5
- SPA 6
- SPA 7
- SPA 8

**Census Tract** Six-digit code found on your map.

**Did you observe/ detect signs or symptoms of the following?**

- Serious physical health condition
- Mental illness
- Alcohol or drug abuse
- No observations

**Surveyor, what is that status of the survey?**

- Complete (respondent was asked every question)
- Partial (respondent was asked some questions)
- Age disqualification (respondent 25 or older)
- Sheltered/Housed/Cannot Confirm

**Did anyone help you fill out the survey? This could include an interpreter or a friend or relative assisting in answering questions.**

- Yes
- No

**Location / Intersection:** the survey was conducted on the corners of

First Street

Second Street

AND/OR

Other (e.g. landmark, park)

**Interviewer Initials**

**Subway Card Received?**

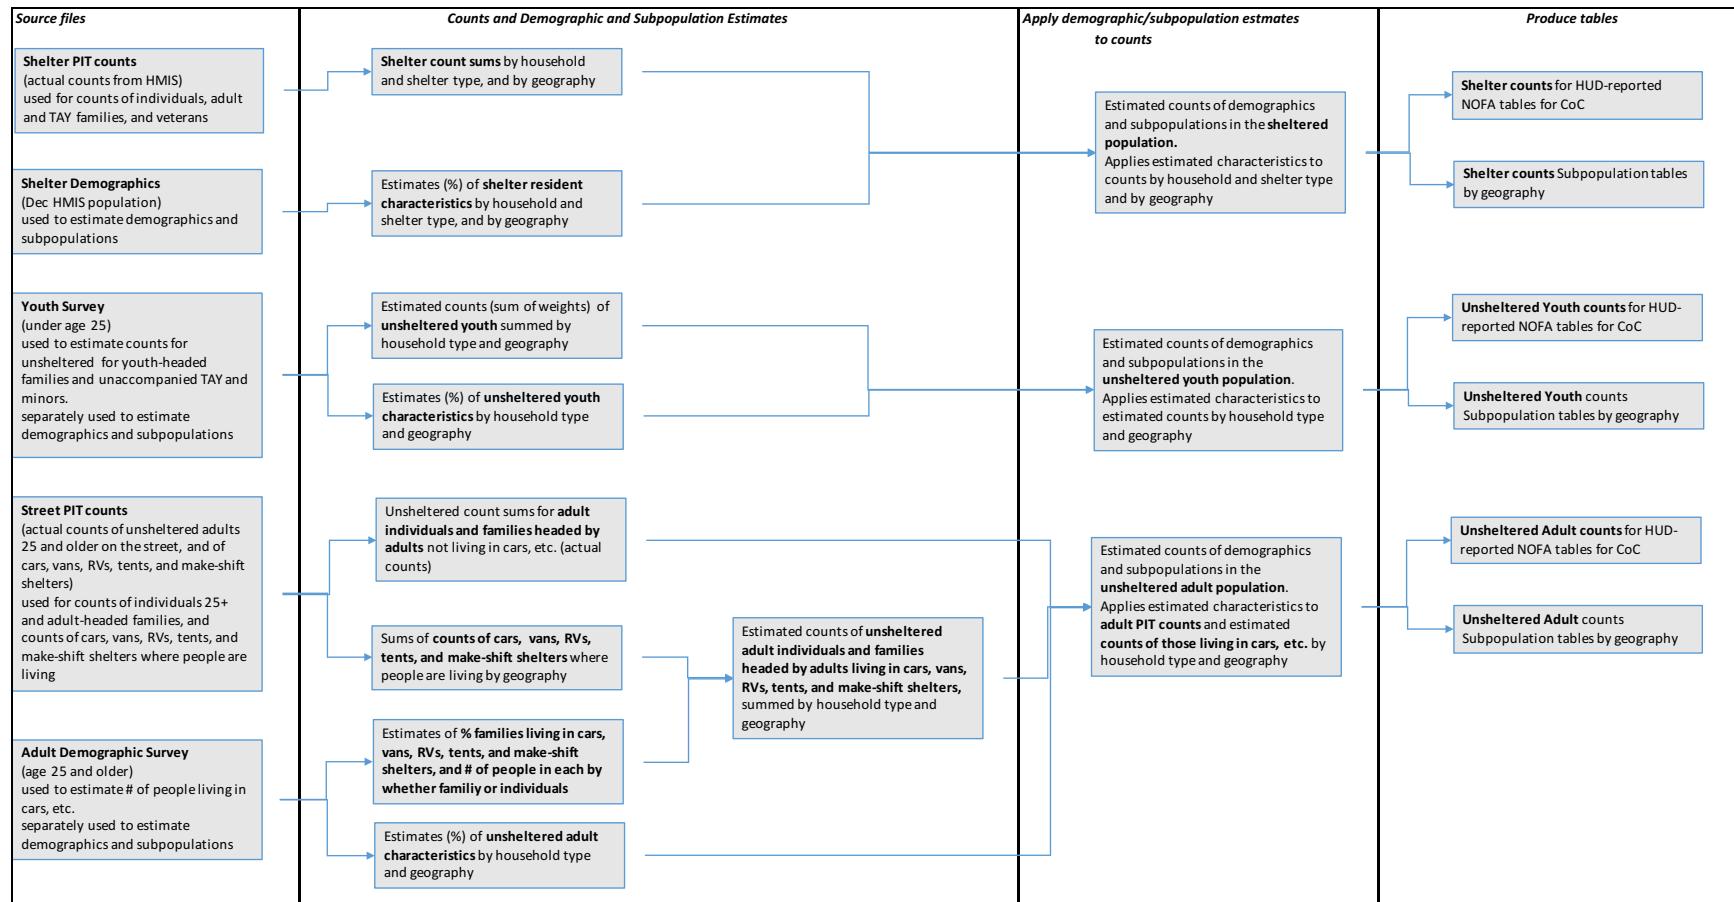

- Yes
- No

**Any comments?**
